BY NORM.ARCHITECTS  
2009

Norm.Architects finds exciting new ways in an ancient Nordic tradition of wood and glass. Though perfectly suited as a lamp, Milk adds more than light to your home.

With Milk it was Norm.Architect's intention to create a soft light that could be placed in all corners of the home to create a cosy atmosphere. Being featured in an array of interior magazines, design blogs and on social media over the last few years they have surely succeeded.
